

Apply for your **TAX CREDITS** today!

Did you claim your Enterprise Zone tax credits last year?

Your business may be located in an Enterprise Zone* which may entitle your business to claim tax credits toward your state income taxes.

The Enterprise Zone program provides tax incentives to encourage businesses to locate and expand in designated economically distressed areas of the state. Businesses located in an Enterprise Zone may qualify for a variety of tax credits and incentives to encourage job creation and investment in these areas.

Many of these credits can be used in later tax years and businesses can re-file for previous years that credits were not claimed.

Tax Credits are given for:

- **Research and development**
- **Purchase of equipment**
- **Hiring new employees**
- **Health insurance**
- **Job training**

*Tax credits are easy to claim. Visit www.jeffco.org, click on Enterprise Zone for information including verification that your business is located in the Enterprise Zone, certification forms, brochure, maps, and more.

Questions? Contact Leigh Seeger, Enterprise Zone Administrator, Jefferson Economic Council at 720-544-5505 or lseeger@jeffco.org.
