## Hole In One

*The size of the golf hole is 4.25 inches in diameter. The standardized size began with "new rules" issued in 1891 from the Royal and Ancient Golf Club of St. Andrews and Royal Musselburgh. The reason is that in 1829 Mulletburgh had invented the first known hole cutter. That hole cutter was 4.25 inches in diameter. The Royal and Ancient Golf Club decided to add the standardization rule for all holes. Everyone else followed. The original hole-cutter is still in existence and is on display at Royal Musselburgh.*
