

City of Arvada Fill Station Program

These fill stands have been constructed to provide water to the bulk purchaser in the most convenient manner possible while maintaining backflow protection to the City Of Arvada Water Supply.

Customers will be required to set up a **prepaid** account with the City of Arvada. Accounts may be opened at the City of Arvada, 8101 Ralston Rd.

In order to avoid freezing and reduce the potential for vandalism, each water customer must provide a hose for use with the facility.
